

e:dose

COLOUR-CODED SUPER CONCENTRATE RANGE

EVANS VANODINE ECO CONCENTRATE & DOSING SYSTEM

e:dose ECO CONCENTRATE & DOSING SYSTEM

The e:dose range delivers products easily and economically in a simple, colour-coordinated system that covers all significant sections of the daily cleaning schedule. These super concentrate cleaning products have been formulated by selecting highly effective ingredients and combining them with clean, fresh perfumes to provide exceptional cleaning performance with a refreshing fragrance. The range also includes two unperfumed products for areas where fragrance is not appropriate. The e:dose range is available in 1 litre dosing bottles and 5 litre bottles for use in the e:dose wall mounted dispensing system or for refilling the dosing bottles.

SUPER CONCENTRATED
Makes up to 100 spray bottles
or 50 buckets per 1 litre

CHOICE OF SYSTEMS
1 litre dosing bottle or
push-button wall dispenser

MULTI-LINGUAL LABELS
(English, Italian, Polish, Romanian,
Lithuanian, Latvian, Estonian)

COLOUR-CODED
Labels, spray bottles and solution

ACCURATE DILUTION METHODS
Avoid wastage

REFILLABLE 1 LITRE BOTTLE
Reduce packaging waste

ENVIRONMENTAL IMPACT

As manufacturers of cleaning and hygiene products we are committed to developing chemicals which provide optimum performance with a minimal effect on the environment. Evans Vanodine has been awarded **Environmental Management System ISO 14001**, which is evidence of our commitment to full compliance with relevant environmental legislation.

Reduce your carbon footprint

By using the e:dose system you will be diluting chemicals at the point of use and sourcing water locally, which minimises transport costs and carbon emissions. The precise dosing measurements not only provide cost-in-use benefits but will also minimise chemical wastage. Re-using the same spray bottle will help to reduce waste packaging, compared with using ready-made chemicals.

Wright Environmental Impact Rating (WEIR)

Evans Vanodine have introduced a unique, innovative system for classifying our products according to their environmental impact. The W.E.I.R. system is designed to help users considering environmental impact issues to choose low impact products where available. The green tick logo on product labels indicates a low environmental impact product. The system is also used to provide a basis for continual product development and improvement.

Please see www.evansgreentick.com for more detailed information.

EC2

DEGREASER

CONCENTRATED HEAVY-DUTY CLEANER DEGREASER

- Multi-purpose, multi-surface cleaner degreaser.
- Neutral pH formulation; safe to use on aluminium.
- Unperfumed; developed for use in both catering and general industry.
- Easily removes ingrained soil and heavy grease from a variety of hard washable surfaces.
- Ideal for use on cooker hoods, ovens, floors and walls.

EC4

SANITISER

CONCENTRATED UNPERFUMED CLEANER SANITISER

- Multi-surface, unperfumed cleaner and disinfectant.
- Kills bacteria and cleans surfaces in one operation.
- Passes EN 1276 under dirty conditions at 1:60 with a 30 second contact time or at 1:100 in 5 minutes.
- Unperfumed; suitable wherever food is handled, prepared or served.
- Ideal for use on worktops, chopping boards, tables, refrigerators and kitchen equipment.

EC6

ALL-PURPOSE

CONCENTRATED ALL-PURPOSE HARD SURFACE CLEANER

- Multi-surface, hard surface cleaner.
- Contains a clean, refreshing fragrance.
- Neutral pH formulation; suitable for all daily cleaning tasks.
- Ideal for use on glass, mirrors, paintwork, laminate, veneer, plastic and all hard floor surfaces.
- For use in all industry, especially the professional contract office cleaning market.

EC7

HEAVY-DUTY

CONCENTRATED HEAVY-DUTY HARD SURFACE CLEANER

- Multi-surface, heavy-duty cleaner.
- Alkaline pH formulation; suitable for those difficult daily cleaning tasks.
- Contains a pleasant, fresh fragrance.
- Suitable for use on vinyl, rubber and concrete floors.
- Also suitable for use in scrubber dryer machines; ideal for busy shopping centres and factories.

EC8

AIR FRESHENER

CONCENTRATED AIR FRESHENER AND FABRIC DEODORISER

- Air freshener and fabric deodoriser containing a patented ingredient to counteract malodours.
- Long-lasting, fresh modern fragrance with notes of jasmine, rose and lime.
- Ideal on fabrics which cannot be cleaned in a washing machine, such as curtains, soft furnishings and carpets.
- Non-flammable formulation.

EC9

WASHROOM

CONCENTRATED, PERFUMED, BACTERICIDAL WASHROOM CLEANER AND DESCALER

- Multi-surface bactericidal cleaner and descaler.
- Removes soil, soap scum and limescale deposits in one operation.
- Passes EN 1276 under dirty conditions at 1:60.
- Leaves a long lasting fresh, floral fragrance.
- Suitable for use on a variety of hard, washable surfaces.
- For use in conjunction with our foaming trigger spray or flip top closure toilet cleaning bottle.

HARD WASHABLE SURFACES

Add 1 x 10ml dose to 600ml water in spray bottle. Spray surface and wipe with clean damp cloth. Increase dosage for heavy grease.

DAMP MOPPING AND GENERAL CLEANING

Add 2 x 10ml doses to 5L warm water in a bucket. Mop or wipe surface.

DISINFECTING HARD SURFACES AND EQUIPMENT

Add 1 x 10ml dose to 600ml water in spray bottle. Spray surface and leave for 30 seconds then wipe with a single-use cloth.

Alternatively, add 1 x 10ml dose per 1L warm water in a bucket. Apply to surface with a clean cloth or mop, leave for 5 minutes and allow to air dry.

Use disinfectants safely. Always read the label and product information before use.

GLASS, MIRRORS, PAINTWORK, LAMINATE, HARD SURFACES AND SPRAY CLEANING FLOORS

Add 1 x 10ml dose to 600ml cold water in spray bottle. Spray surface and wipe with clean damp cloth. Can also be used in conjunction with a high speed floor machine for spray cleaning unpolished floors.

DAMP MOPPING AND GENERAL CLEANING

Add 2 x 10ml doses to 5L warm water in a bucket.

HARD SURFACES AND SPRAY CLEANING FLOORS

Add 1 x 10ml dose to 600ml cold water in spray bottle. Spray surface and wipe with clean damp cloth.

Can also be used in conjunction with a high speed floor machine for spray cleaning unpolished floors.

DAMP MOPPING AND GENERAL CLEANING

Add 2 x 10ml doses to 5L warm water in a bucket.

SCRUBBER DRYER

Add 8 x 10ml doses to 40L water in tank of combination machine or pro-rata dilution rate of 1:500 of water.

AIR FRESHENING AND FABRIC DEODORISING

Add 2 x 10ml doses to 600ml cold water in spray bottle. Add extra doses to overcome stronger malodours. Spray high into the air, away from face, or sparingly onto fabrics, soft furnishings or carpets.

Do not spray near food. Do not spray on leather, suede or silk and avoid spraying onto hard surfaces.

SINK, BATH, TILE AND SHOWER AREAS

Add 1 x 10ml dose to 600ml cold water in spray bottle. Spray surface and wipe with clean, damp cloth. Increase dosage for descaling.

DAMP MOPPING AND GENERAL CLEANING

Add 2 x 10ml doses to 5L warm water in a bucket.

TOILET BOWLS AND URINALS

Add 2 x 10ml doses to 900ml cold water in flip top closure bottle.

Increase dosage for hard water areas.

DOSING BOTTLE

The heavy-duty, 1 litre, e:dose container, supplied with an accurate built-in dosing cap, is lightweight, portable and easy to use. This option is suitable for all sites, especially buildings with multiple cleaning stations or limited storage space. Contract cleaners will also find this option ideal due to its portability.

HOW TO USE

Fill a trigger spray bottle or bucket with water. With the dosing bottle cap closed, simply tip the container upside down, wait a few seconds for the 10ml reservoir to fill and tip back to an upright position. Open the flip top and pour the dose into the spray bottle or bucket.

A specially designed basket for securely holding 2 x 5 litre bottles of concentrate products in a horizontal position and 5 litre aeroflow taps are available to safely and easily refill the 1 litre dosing bottles. Display clips which fasten to the bottle handles and free of charge on/off labels are also available for easy identification purposes.

WALL-MOUNTED DISPENSER

The easy to install, robust, wall-mounted e:dose dispenser, designed for use with our 5 litre super concentrate bottles, is the most suitable option for busy, larger establishments, especially kitchens, food processing plants, supermarkets and shopping centres. The dispenser is available as either a trigger fill or bucket fill option.

HOW TO USE

Fill a trigger spray bottle or bucket with water and place under the appropriate dispenser. Push button on dispenser to provide the exact dose required.

The trigger fill dispenser comes with a built-in shelf to hold the spray bottle safely in position and avoid spillage. The bucket fill dispenser comes with a swivel spout that affixes to the wall. A wire wall bracket is available for safely and securely holding the 5 litre bottle off the floor.
